

MATH STORY

BECAUSE THE BEST WAY TO UNDERSTAND
THE SUBJECT IS BY VISUALIZING IT !!

What is a Math Story?

Fostering the love for the subject through storytelling can be a powerful strategy.

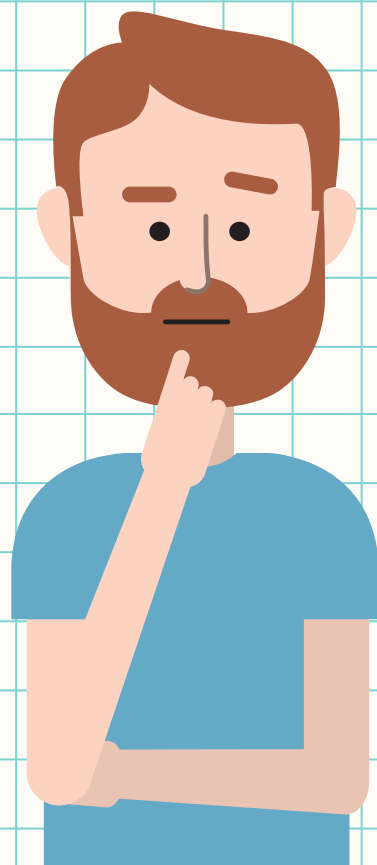

The main motive of making the learner write Mathematical stories is to develop their Mathematical thinking.

It enhances their creativity which revolves around the area of their interests.

The learner can best understand the concepts when they can visualize them, feel them.

How is it
different
from Math
classes?

CREATE

a math story around
the given situation

List
RELEVANT
Math concepts
involved in your
story.

The module is designed using the C-R-E-I Pedagogy.

EXPLORE

how the concepts
are the hero in your
story.

INVESTIGATE

how the villains would
win if your "Math
Hero Concept"
wasn't involved.

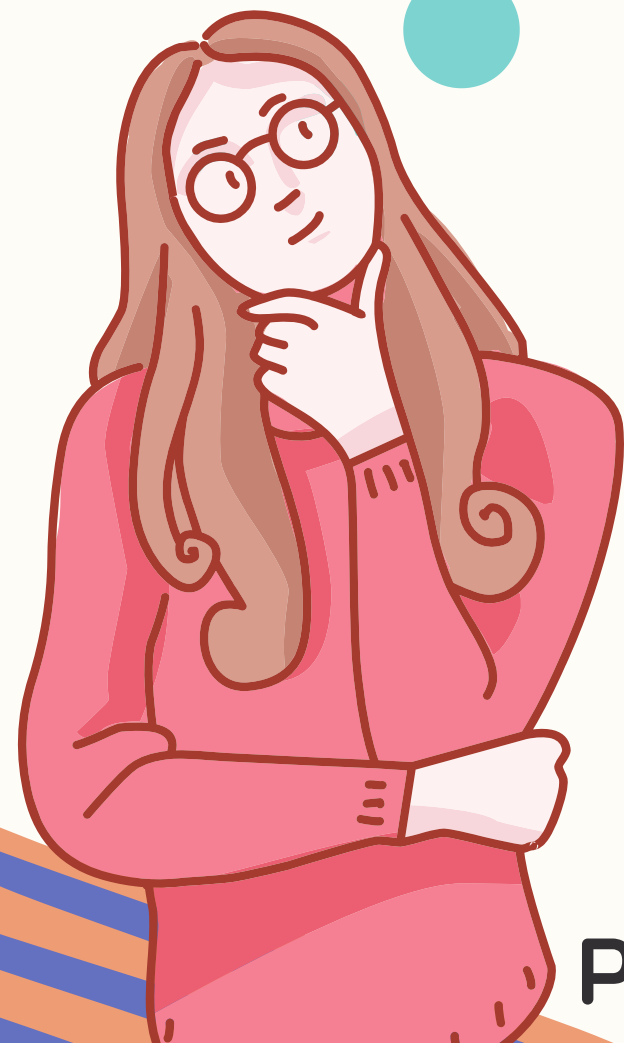

How will it benefit my child?

Enhances Creativity

Boosts Confidence

Develop Conversation Skills

Turn Hobbies To Ideas

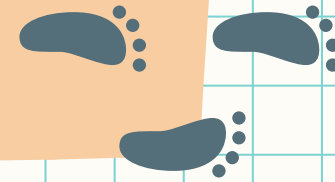

P.S. : No more "Why do we study this concept Mama, Papa?" questions.
